

RIVER s/t cd \$12.60 Shelflife

You'll find yourself riding a glass roller coaster as you're given a tour of his musical amusement park. You'll be swaying to bossa-tinged pop songs with techno beats, grooving to mid-fi dance numbers, or composing a choreographed dance routine to the random cabaret showstopper. No matter the tempo, each song is grounded by the tender and hushed melodies of River's unique vocal stylings. From bossa dub masterpiece, recalling the finer moments of Joao Gilberto and Erasmo Carlos -- but twisted around and mixed into a drunken splendor to dancey, French cabaret, & even Pet Shop Boys-esque child-like pop. RIVER ...is the Postman cd \$11.00 Blackbean & Placenta

Full Length of pretty boy pop from France influenced by the likes of Blueboy, Air, Belle & Sebastian, Club 8, EBTG, Pet Shop Boys, OMD, DM, etc, etc. Yet there's a very particular charm all its own to River's quirky uptempo parlor tunes. Just ask Radio Khartoum, Shelflife, and the numerous little tape labels that have adored River's fey, coy pop for years. This is music for both thinking about Rohmer films and collecting Pokemon.
